# About Us

## Our Team

*Florence Columbus  
Healthcare Recruiter*

Florence Columbus applies her extensive training and firsthand experience to create excellent matches between candidates and clients. She followed her Pre-Nursing studies with her Bachelors of Science degree in Health Science California University Los Angeles. Now with several years of medical office experience and 11 years of healthcare staffing/recruiting and marketing experience to her credit, Florence is using her talents to assist Oceans Medical Staffing to meet today's medical staffing needs. Florence's progression to medical staffing in 2004 was a seamless transition that has allowed her to apply her talent and expertise to the benefit of many happy clients and employees. She instinctively recognizes the skills required to maintain an efficient medical practice.

In 2010, with encouragement and support from her husband, Florence left a successful position at OfficeWorksRX Medical Staffing where she built the Orange County market from the ground up to a 2 million dollar a year business, to start Oceans Medical Staffing, Inc. Leaving the corporate world after 6 years has inspired her to apply her knowledge and skills into a passion by helping people find great opportunities and helping her clients find great employees.
